FIG. 3 is a block diagram of a system 300, according to one embodiment of the present invention. The system 300 includes a user device 305, a network 315, a server 320, a controller 325, an OSP Host Complex 380, an IM Host Complex 390, and a controller 340. The user device 305 is connected to the network 315 via a connection 350. The network 315 is connected to the server 320 via a connection 360. The server 320 is connected to the controller 325 via a connection 370. The controller 325 is connected to the OSP Host Complex 380 via a connection 385. The OSP Host Complex 380 is connected to the IM Host Complex 390 via a connection 395. The IM Host Complex 390 is connected to the controller 340 via a connection 355. The controller 340 is connected to the network 315 via a connection 365. The system 300 is shown in a perspective view.

FIG. 9 is a schematic diagram of a user interface for a mobile device. The interface includes a "Send" button (905) and a "Cancel" button (910). Below these buttons is a text prompt: "Press the End Talk button to end this AOL Talk session". At the bottom of the interface are three radio button options: "End Talk", "Get Profile", and "Notify AOL".
